SUMMARY

Currently a Software Engineering Cadet at 42 Warsaw, mastering C, Linux shell scripting, memory management, and low-level algorithms in an intensive peer-to-peer programming environment. Concurrently building core competencies in Data Engineering, focusing on advanced SQL, relational schema design, and modular Python data pipelines. Prior to software engineering, spent 4+ years as a 3D Animator and VFX Artist for international feature films and episodic shows (Netflix, Disney Junior). Developed strong creative problem-solving skills, discipline under tight production deadlines, and experience collaborating across large cross-functional teams. Now applying that creative rigor and pipeline familiarity entirely to software engineering and data infrastructure. Top skills Python (Programming Language) • SQL • C (Programming Language) • Data Engineering • Linux

EXPERIENCE

Software Engineer Cadet - 42 Warsaw · Full-time

May 2026 — Present

Warsaw, Mazowieckie, Poland · On-site

Compositor (VFX) - POSTER · Full-time

Nov 2024 — Mar 2026

Zagreb, Croatia · On-site

Professional development - Career break

Aug 2024 — Jan 2025
